

Dear Colleagues:

Our community is most fortunate to have one of the finest regional museums in the Southeast United States. Our Museum of Arts and Sciences features numerous educational, entertainment, and participatory venues which appeal to all ages. These include the Children's Science Wing, the Planetarium, the Root Museum, the Cuban Museum and the Klancke Environmental Learning Complex. Visiting art exhibitions are selected to enhance the permanent collection. All are exciting, educational, and worthy of your visit. Local support for our museum is greatly appreciated numerous family or individual membership options are available for your convenience.

On Friday, October 8, 2010, the Museum is sponsoring "Wine & Apps : An iLove My iPhone Party." Please join me for what is sure to be an evening of fun, learning, and sharing the excitement of owning an iPhone. And what a neat opportunity this will be for you to become better acquainted with our Museum of Arts and Sciences in Daytona Beach! See you there.

- Dr. Donald M. Keene

Volusia-Flagler Dental Association Newsletter

"The Unified Voice of Organized Dentistry"

Serving Volusia and Flagler Counties

New Dentist Mixer

Thursday, August 26th

Your Volusia-Flagler County Dental Association is reaching out to "new" dentists in our area to welcome them to the profession and our community of practitioners. Organized Dentistry offers numerous benefits including professional development, continuing education, political advocacy and comraderie just to name a few. By encouraging new membership we ensure the vitality and effectiveness of our organization. A reception has been planned to further these principles... and to have a great time doing it! **The event will be held at Sunset Harbor Yacht Club in the Monte Carlo Room located at 861 Ballough Rd., Daytona Beach. The reception starts at 6:30 p.m.** If you are a dentist in practice for less than 10 years or are new to the area, join us for some food, fun, fellowship and an adult beverage or two.

Presidents Message for August-September 2010

Greetings Everyone,

I hope everyone had a great summer. It has been a hot one but fall is coming soon. I, and the Executive Board, want to welcome everyone to the 2010-2011 Volusia-Flagler County Dental Association year. Dr. David Lloyd has gathered an outstanding list of speakers for our upcoming meetings. We also are working on a "New Member Mixer" Party which will be held in August. Please be sure to know we will do our very best to make this year a fantastic one. Please encourage any local dentist that is not a member to come as our guest to the meetings as we would like to see every dentist in our 2 counties actively participate in our association and become members. Our meetings will again be held at Daytona USA Bill France Room on selected Tuesday evenings. Please read your newsletter for upcoming dates and speaker topics. I want to encourage all to visit our website for additional information. I look forward to our new year as your President and seeing everyone at the meetings.

Sincerely,

Bryan Bergens

If you prefer to become a Confidential Informant, your identity will only be disclosed by the department under the order of a judge having jurisdictional authority.

2010 UPDATE: ALL-CERAMIC CROWN SYSTEMS WHAT CAN YOU DEPEND ON?

Robert R. Cowie, DDS, FAGD

1 Hour Lecture

Confused with the seeming endless introduction of new crown and bridge materials? Unsure of what to use on your patients and why? If a restoration fails, who pays...the manufacturer, the lab, the patient...you?

All ceramic crowns and bridges have been heavily advertised to the general public, and as a consequence most offices are getting the question "do you do them?" What ceramic materials are available and are some better than others? What fabrication techniques are available for these materials and do some produce better results than others?

This presentation is a must for those who are considering using some of these new materials, as well as those who are using them and want to learn more about them. Research will be cited, as well as clinical cases reviewed. Take advantage of this unique opportunity to learn more about these new materials in an era where restoration selection has become increasing complex.

Program objectives:

- Understand the advantages and disadvantages of the crown and bridge materials that are available
- Gain insight into the various fabrication techniques that are now used in crown and bridge including CAD/CAM and ceramic pressing
- Understand how materials are promoted to our profession now and what to be on the lookout for

Dr. Cowie, a 1976 graduate of Northwestern University Dental School, practices in Jacksonville, Florida. He is a member of the ADA, American Equilibration Society, American and Florida Academies of Dental Practice Administration, Pierre Fauchard Academy, and Toastmaster's International, as well as a Fellow in the AGD and American College of Dentists. He has completed over 2400 hours of continuing education, including the continuums at the Dawson Center for Advanced Dental Studies, the Pankey Institute, and the Society for Occlusal Studies. He was featured in last December's issue of "Dentistry Today" for the seventh straight year as one of the leading educators in dentistry. He has presented over 200 lectures nationally and internationally on restorative procedures, materials, occlusion, and communication skills, and has published articles in Dentistry Today, Journal of Dental Technology, the Ontario Dental Journal, Contemporary Dental Assisting, and Oral Health.
