President's Message

Summer rain, fresh vacation memories and kids anticipating the upcoming school year: It's a sure sign that your Volusia-Flagler County Dental Association is getting ready to kick off a new year. I hope everyone is enjoying the summer and staying cool. We have an exciting program and some excellent personal and professional opportunities that lie ahead. The road ahead is mapped out along the three-part theme of professional development, service to the community and strengthening our membership.

We are excited to present Dr. David Hornbrook as our featured speaker this year. This all day course will be held at the Daytona Beach Resort and Conference Center on October 21, 2011. Dr. Hornbrook is an internationally renowned clinician and researcher. He will be updating us on some of the latest breakthroughs in restorative and cosmetic dentistry. This world-class program is only \$80 for VFCD members and their staff! The lineup of speakers for our general membership meetings is top-notch as well. Be sure to take advantage of these fantastic member benefits.

These are tough economic times, yet our profession has been blessed by continued demand for our services. Although we have a respected reputation in the mind of the public, many people do not appreciate the many ways we contribute to the oral health and quality of life of those in our community who have difficulty with access to dental care. The ADA's "Give Kids a Smile" program has been a tremendous success at reaching underserved populations as well as publicizing the work that our association does in the community. I want to encourage everyone's participation in this event in February and support the efforts of other groups such as the Good Samaritan clinic in Orange City. Fill some teeth, fill your heart and let the world know how our profession is changing the lives of people in every strata of our society.

The power of our profession to serve our patients' needs and desires is so effective, in large part, due to the strong representation of organized dentistry. We enjoy an enviable degree of autonomy, quality of care and freedom from unreasonable regulation thanks to the participation of members like you and the work of our many volunteers in leadership. There are numerous issues that still threaten our profession, however, so continued membership recruitment and participation is a priority. We will be hosting a new member mixer at La's Bistro in Ormond Beach on August 26. If you know of any colleagues who are new to the area or perhaps just "out of the loop", please let them know about the value of membership and invite them to learn more at the mixer. Contact Erin Anderson, our Executive Secretary, at 253-3629 for more information. Also, please support Dr. Sam Low in his bid for the presidency of the ADA. Sam is a respected educator, speaker and clinician with a heart for service. His presence at the national level will give us the voice to shape our future and help protect this wonderful calling we know as dentistry.

It's going to be a great year! Join the fun, learn some stuff and just as importantly, spread the word. Your Executive Committee and I look forward to serving you and appreciate your input.
